ROOT CONCEPTS

STICKER CATALOG

SINCE 1996

For over 30 years, millions of Root Concepts stickers have traveled around the globe. They act as sparks of inspiration and ambassadors of free expression, available to anyone.

The challenges of running a small business are real, but we remain dedicated to our mission and stand with all independent artists making the world a more interesting place.

Our mission to create accessible art that encourages critical thinking and artistic expression continues today

because of your support.

Thank you!

Introducing the NEW book

LIVING FROM THE INSIDE OUT

From self-awareness to self-acceptance

by Douglas Holwerda

"What is necessary to change in a person is to change one's awareness of oneself."
Abraham Maslow

"There is more wisdom in your body than in your deepest philosophy."
Frederick Nietzsche

"If most of us remain ignorant of ourselves, it is because self knowlege is painful and we prefer the pleasure of illusion"
Aldous Huxley

"One who knows others is learned. One who knows oneself is wise."
Lao Tzu

Living From the Inside Out
is a guide to our inner life. Through self-awareness we gain self-acceptance, overcoming our limitations to become what we are meant to be.
